

ubicell

## Smart Lighting

Photocell replacement that provides advanced light control, utility metering, tilt/vibration sensing, connections to smart city sensors, public WiFi and location based services.

ubicquia®

# ubicell

## Global Compatibility

Advanced light controller compatible with 360M+ streetlights worldwide, with tilt and vibration sensing

## Energy and Maintenance Savings

Dynamic dimming, programmable schedules, and ANSI 12.20 utility metering delivered at 99.9% accuracy

## Integrated Intelligence

Connection to 3rd party smart city sensors, WiFi & bluetooth connectivity and beacons. Optional integrated public WiFi module

## Real Time Updates

For improved asset management, preventative maintenance and field servicing. All data available via ubivu management

### Key Technical Specs

- PWM + DALI Dimming
- Global GPS Compatibility
- ANSI C12.20 Class 0.1 Utility Meter
- High Accuracy Tilt & Vibration Sensor
- WiFi/Bluetooth Connectivity & Beacons
- 5/10 Year Warranty

### Available Connectivity

- LTE M1/NB1
- LTE Cat-1
- LoRa
- WiSun & LoRa Mesh
