Lumecon

Aluminum Decorative Arm SAMPLE DESIGNS

From Classic to Contemporary, Lumecon Provides Quality DECORATIVE ARM SOLUTIONS for Projects Containing Diverse Architectural Styles.

We Design and Fabricate Total Project Solutions.

Decorative Arms

Whether looking to create an integrated design that blends into existing streetscapes, or to create a unique design for your custom project, Lumecon has the unparalleled experience and resources to fabricate quality ARM SOLUTIONS.

This collections of Aluminum Decorative Arm designs are presented to assist and inspire Architects, Designers, and Specifiers with streetscape pole design. While representative of our Engineering and Manufacturing capabilities, they represent only a fraction of the hundreds and hundreds of arm designs produced over the last six decades. If you don't see the perfect arm for your project, want to combine design elements seen in different arm styles, or have a unique and custom concept, simply provide the Lumecon Team with the details.
