

Decorative Fluted Shaft Options

CREATE PROJECTS THAT INSPIRE.

Fluted shafts choices include four Tapered shaft designs...4-Flute, 8-Flute (Octaflute), 12-Flute and 16-Flute...as well as a 12-Flute Straight shaft option. Providing a unique look and style, the fluted shaft profiles can be combined with over five dozen standard Decorative Base profiles that are sure to create the perfect choice for your next Streetscape project.

COMMITTED TO QUALITY.

In-house fluting operations allow Lumecon's supplier to control the exacting detail found in each individual flute in our Tapered Fluted aluminum poles. Our experience and commitment to Quality Assurance Systems ensure the highest-quality flutes, delivering shafts that sharp, free of twists, and ready to enhance the look of your next light pole project.
