## Description

The Lumecon AmberLED Q-KH15Q luminaire is available in two wattages with a wide choice of mounting configurations and an IES Type V distribution designed to replace HID lighting systems from 70w to 175w MH or HPS for wildlife, dark skies, or security applications requiring monochromatic AMBER light. LEDs operate between 585 and 595 nm, greater than 560nm required for wildlife protection. Typical applications include general area, parking, flood, security, and accent lighting for retail centers, industrial parks, schools and universities, public transit and airports, office buildings and medical facilities. Mounting heights of 10 to 20 feet can be used based on light level and uniformity requirements.
