Midtown Decorative Series

Looking for a decorative LED lighting solution that's not only stylish but also built to last? Look no further than Lumecon's Midtown Series, made in USA / BABA / BAA compliant LED lights.

- Decorative Post-Tops
- Architectural Post-Tops
- Carriage Post-Tops
- Hang-Straight Teardrop
- Side-Mount Teardrop
- Walkway Bollards

The Midtown Series provides a wide range of customizable options that can improve any streetscape project, including municipal, public works, commercial, and retail, as well as campus lighting requirements. With its classic and traditional shapes, the Midtown Series offers customizable features such as anti-glare optics, tiered wattages, and a variety of color temperatures. Whether you need custom assembly or specific project design, spec, or RFP requirements, the Midtown Series offers numerous options to suit your needs.

Lumecon values the importance of creating high-performance and quality products that support American jobs and manufacturing. We take pride in offering products that are made in the USA, including the Midtown Series. Our team uses top-quality materials and cutting-edge technology to ensure the Midtown Series is durable, reliable, and built to last.

The right combination of globes, cages, fitters, and finials can add significant aesthetic value and contribute to a visually pleasing streetscape.

GLOBES

We offer a range of one-piece textured blow molded acrylic and polycarbonate globes and two-piece injection molded prismatic acrylic globes. The one-piece textured blow molded globe is designed for LED and is impact modified and UV resistant. The two-piece acrylic lens post top has precise prisms achieved through injection molding, which provide uniform light distribution and efficiency.

ROOFS & CAGES

Decorative roof tops and stylized cage designs can add significant aesthetic value to streetscape decorative post-tops, enhancing the overall look and feel of the urban landscape. These optional features provide designers with a wide range of creative possibilities to make the lighting fixtures more visually appealing and unique, while also enhancing the streetscape's character and identity.

FITTERS & FINIALS

A variety of fitter sizes and designs, as well as finial choices, are critical elements that can complete the overall look of a decorative post-top. They offer designers an opportunity to add custom flair and character to their lighting fixtures, making them stand out in any streetscape.

POLES, ACCESSORIES & BASES

No decorative post-top project is complete without the perfect pole, which not only elevates the look of the fixture but also adds a touch of sophistication to any streetscape. Our steel or aluminum poles come in various sizes and finishes, offering endless possibilities to enhance the overall design aesthetic. Additionally, our collection of decorative base options is sure to impress and inspire creativity in any layout design.

The Lumecon DIFFERENCE

Lumecon's Midtown Decorative Series stands out as the ideal choice for those seeking premium quality and customizable decorative outdoor lighting solutions.

LUMECON LIGHT ENGINES

Lumecon's ETD™ System represents an innovative approach to thermal design, delivering a product that, improves energy efficiency, durability, and high-quality lighting performance.

Lumecon's Industry-First Thermal Design, ETD™ System:

- Utilizes a thermally bonded light engine to enhance thermal dissipation and ensure long life.
- Provides maximum thermal dissipation to the fixture exterior to keep it cool and maintain high-quality lighting performance over time.
- Uniformly coats the LED light engine panel with a UV-stabilized acrylic polymer resin that meets MIL and ASTM dielectric standards to protect it from moisture and corrosion.
- Tests each light engine to UL and IPC standards for flammability, moisture resistance, and thermal shock to ensure quality and reliability.

EMBRACING RESPONSIBLE OUTDOOR LIGHTING

Joining IES and IDA in promoting the five principles for responsible lighting:

- ✓ **Useful:** Purposeful Lighting
- ✓ **Targeted:** Precision in Illumination
- ✓ **Low Light:** Minimizing Brightness
- ✓ **Controlled:** Efficient Usage
- ✓ **Color:** Warm & Natural Tones

By embracing these principles, we are confident that responsible outdoor lighting can coexist harmoniously with the environment and contribute to the well-being of communities. Lumecon is dedicated to providing innovative lighting solutions that align with these principles, helping you create outdoor spaces that are both functional and environmentally friendly.

MATERIALS / FINISHES

When considering the longevity and return on investment of your Decorative Post-Top, the choice of materials and finishes is a crucial factor. Our selection of durable acrylic and polycarbonate globes, which are UV resistant, and vandal-resistant lenses, are designed to withstand the test of time. In addition, our cast aluminum fitters can endure even the harshest climates. By prioritizing durability, corrosion resistance, and reduced maintenance, our materials and finishes offer superior performance and value.

- Globes: Acrylic, Polycarbonate, Prismatic - UV stabilized / UV resistant
- Housing: Cast aluminum fitter housing with textured or 60% gloss polyester powder coat finishes for maximum durability
- Finishes: Gloss, textured, antique, custom color ways suitable for all locations including marine conditions and harsh UV exposures

OPTIONS AND ACCESSORIES

To optimize the performance of your custom Decorative Post-Top, we provide a range of accessories such as photo controls and 7-pin receptacles, to name just a few. These customized options can help you achieve energy efficiency and minimize light pollution.

- 7-Pin Receptacle
- House Side Shield
- Twist Lock Photo Control
- Button Eye Photo Control
- Reflectors

7-Pin Receptacle Sample

Turn every Lumecon light into a smart city hub to control lights, densify WiFi and provide data backhaul.

Type IV Distribution Sample

Reduces light pollution and protects certain areas by directing light away from unwanted locations.

The Right Choice

By selecting Lumecon's high-quality post-top decorative fixtures, our customers can create a safe and welcoming outdoor environment while ensuring responsible outdoor lighting practices.

Quick Reference Guide

DECORATIVE GLOBES

Our globe series have a street-side lighting efficiency three times that of traditional globes, which makes them ideal for creating safer and more shadow-free environments, increase light levels and uniformity while reducing glare. Available in traditional and contemporary globe designs.

**FEATURES**

- 3000K or 4000K Color Temperatures
- 20kA / 40kV Extreme Surge Suppressor
- 7-Pin Receptacle Ready for use with Wireless Control Systems (optional)
- Refractor and prismatic top feature a historically significant and Euro-styled uniqueness
- Enhanced Thermal Dissipation System provides maximum thermal dissipation
- All LEDs are rated for a minimum of 100,000 hours of continuous operation at ambient temperatures from -40°F/-40°C to 115°F/46°C
- 120-277V or 347-480V Input Voltage
- Two-piece prismatic acrylic globe construction to obscure points of light
- 20 Year Non-Yellowing Globe Warranty
- Slip fits over 2 7/8" and 3" OD tenons on most decorative poles. Requires nominal 3" diameter x 2 7/8" tall tenon
- Cast aluminum fitter housing with textured or 60% gloss polyester powder coat finishes for maximum durability
- CSA 22.2 No. 250 for Wet Locations and BABA / BAA compliant
- 10-Year L70 performance-based warranty

FN2 4"			32-00123 - House Side Shield
FN3 3"			7P - Seven-Pin Twist Lock Photocell Receptacle
FN4 ² 3.5"			32-00114 - Type IV

**FEATURES**

- 2200K, 2700K, 3000K, 4000K or 5000K Color Temperatures
- Preprogrammed Wattages available in 35W, 45W and 55W
- 20kA / 40kV Extreme Surge Suppressor
- 7-Pin Receptacle Ready for use with Wireless Control Systems (optional)
- Powered by the Lumecon L-RETRO-DG Light Engine
- Enhanced Thermal Dissipation System provides maximum thermal dissipation
- All LEDs are rated for a minimum of 100,000 hours of continuous operation at ambient temperatures from -40°F/-40°C to 115°F/46°C
- Acrylic and Polycarbonate Globe materials available
- 120-277V or 347-480V Input Voltage
- Slip fits over 2 7/8" and 3" OD tenons on most decorative poles. Requires nominal 3" diameter x 2 7/8" tall tenon
- Cast aluminum fitter housing with textured or 60% gloss polyester powder coat finishes for maximum durability
- DLC® qualified light engine and ETL Listed to UL 1598 / 8750 and CSA 22.2 No. 250 for Wet Locations and BABA / BAA compliant
- 10-Year L70 performance-based warranty

Notes:
1. Cage and Fitter welded together requiring both to be selected
2. FN1 and FN4 are Acrylic and only available in black

**FEATURES**

- 2200K, 2700K, 3000K, 4000K or 5000K Color Temperatures
- 20kA / 40kV Extreme Surge Suppressor
- 7-Pin Receptacle Ready for use with Wireless Control Systems (optional)
- Powered by the Lumecon LROF Light Engine
- Enhanced Thermal Dissipation System provides maximum thermal dissipation
- All LEDs are rated for a minimum of 100,000 hours of continuous operation at ambient temperatures from -40°F/-40°C to 115°F/46°C
- 120-277V or 347-480V Input Voltage
- Two-piece prismatic acrylic globe construction to obscure points of light
- 20 Year Non-Yellowing Globe Warranty
- Slip fits over 4" OD tenons on most decorative poles
- Cast aluminum fitter housing with textured or 60% gloss polyester powder coat finishes for maximum durability
- 10-Year L70 performance-based warranty

ORDERING INFORMATION

Lumecon Midtown Post-Top Series

Example Part Number: LM-SEL1-40-T2-1-NW-C-BK

REQUIRED

MODEL	WATTAGE	DISTRIBUTION	VOLTAGE	CCT	LENS	COLOR
LM-SEL1 - Single Arm	40 - 40 Watts	T2 - Type II	1 - 120-277V	OW - 3000K	C - Clear w/optics	BK - Black Gloss
LM-SEL2 - Double Arm	75 - 75 Watts	T3 - Type III	2 - 347-480V	NW - 4000K	CC - Custom Color	
	115 - 115 Watts	T4 - Type IV		CW - 5000K	Must specify RAL number	
	160 - 160 Watts	T5 - Type V				

OPTIONAL

MS - Microwave Occupancy Sensor with Dimming for Mounting Heights of 8' to 40'; (120-277v Only)

R - Twist Lock Photocell Receptacle Only

RS - Twist Lock Photocell with Shorting Cap

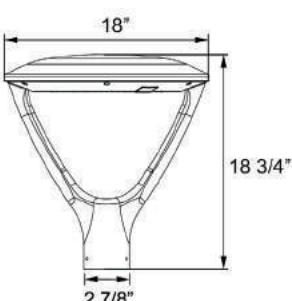

7P - Seven-Pin Twist Lock Photocell Receptacle Only (Controls by Others)

BB - Battery Back Up (Cold Rated)

TA - Tenon Adapter (Converts a 2 1/2" x 4" Pole Tenon to a 2 1/2" x 3" Tenon. Die-Cast with Powder coat finish)

TAB - Tenon Adapter (Black) Standard

TAC - Tenon Adapter (Custom Color) Special Order

**FEATURES**

- 2200K, 2700K, 3000K, 4000K or 5000K Color Temperatures
- Preprogrammed Wattages available in 20W, 40W, and 60W
- 20kA / 40kV Extreme Surge Suppressor
- 7-Pin Receptacle Ready for use with Wireless Control Systems (optional)
- Powered by the Lumecon L-RETRO-T Light Engine
- Enhanced Thermal Dissipation System provides maximum thermal dissipation
- All LEDs are rated for a minimum of 100,000 hours of continuous operation at ambient temperatures from -40°F/-40°C to 115°F/46°C
- Acrylic and Polycarbonate Lens materials available
- 120-277V or 347-480V Input Voltage
- Slip fits over 2 7/8" and 3" OD tenons on most decorative poles. Requires nominal 3" diameter x 2 7/8" tall tenon
- Cast aluminum fitter housing with textured or 60% gloss polyester powder coat finishes for maximum durability
- DLC® qualified light engine and ETL Listed to UL 1598 / 8750 and CSA 22.2 No. 250 for Wet Locations and BABA / BAA compliant
- 10-Year L70 performance-based warranty

FEATURES

- 2200K, 2700K, 3000K, 4000K or 5000K Color Temperatures
- Preprogrammed Wattages available in 20W, 40W and 60W
- 20kA / 40kV Extreme Surge Suppressor
- 7-Pin Receptacle Ready for use with Wireless Control Systems (optional)
- Powered by the Lumecon L-RETRO-T Light Engine
- Enhanced Thermal Dissipation System provides maximum thermal dissipation
- All LEDs are rated for a minimum of 100,000 hours of continuous operation at ambient temperatures from -40°F/-40°C to 115°F/46°C
- Acrylic and Polycarbonate Lens materials available
- 120-277V or 347-480V Input Voltage
- Slip fits over 2 7/8" and 3" OD tenons on most decorative poles. Requires nominal 3" diameter x 2 7/8" tall tenon
- Cast aluminum fitter housing with textured or 60% gloss polyester powder coat finishes for maximum durability
- DLC® qualified light engine and ETL Listed to UL 1598 / 8750 and CSA 22.2 No. 250 for Wet Locations and BABA / BAA compliant
- 10-Year L70 performance-based warranty

**Product Style Samples**

**FEATURES**

- 2200K, 2700K, 3000K, 4000K or 5000K Color Temperatures
- Preprogrammed Wattages available in 35W, 45W and 55W
- 20kA / 40kV Extreme Surge Suppressor
- 7-Pin Receptacle Ready for use with Wireless Control Systems (optional)
- Powered by the Lumecon L-RETRO-DG Light Engine
- Enhanced Thermal Dissipation System provides maximum thermal dissipation
- All LEDs are rated for a minimum of 100,000 hours of continuous operation at ambient temperatures from -40°F/-40°C to 115°F/46°C
- Acrylic and Polycarbonate Lens materials available
- 120-277V or 347-480V Input Voltage
- Slip fits over 2 7/8" and 3" OD tenons on most decorative poles. Requires nominal 3" diameter x 2 7/8" tall tenon
- Cast aluminum fitter housing with textured or 60% gloss polyester powder coat finishes for maximum durability
- DLC® qualified light engine and ETL Listed to UL 1598 / 8750 and CSA 22.2 No. 250 for Wet Locations and BABA / BAA compliant
- 10-Year L70 performance-based warranty

LUMECON

LUMECON

**FEATURES**

- 2200K, 2700K, 3000K, 4000K or 5000K Color Temperatures
- Preprogrammed Wattages available in 45W, 65W and 90W
- 20kA / 40kV Extreme Surge Suppressor
- 7-Pin Receptacle Ready for use with Wireless Control Systems (optional)
- Powered by the Lumecon L-RETRO-T Light Engine
- Enhanced Thermal Dissipation System provides maximum thermal dissipation
- All LEDs are rated for a minimum of 100,000 hours of continuous operation at ambient temperatures from -40°F/-40°C to 115°F/46°C
- 120-277V or 347-480V Input Voltage
- Slip fits over 2 7/8" and 3" OD tenons on most decorative poles. Requires nominal 3" diameter x 2 7/8" tall tenon
- Cast aluminum fitter housing with textured or 60% gloss polyester powder coat finishes for maximum durability
- DLC® qualified light engine and ETL Listed to UL 1598 / 8750 and CSA 22.2 No. 250 for Wet Locations and BABA / BAA compliant
- 10-Year L70 performance-based warranty

**FEATURES**

- 3000K, 4000K or 5000K Color Temperatures
- Energy savings up to 70% vs. comparable metal halide bollards
- Sturdy 8" aluminum shaft matches existing bollard dimensions with three point mounting or a retrofit four-point solution
- Optional cold temperature (-20C) emergency battery backup
- Asymmetric and Symmetric optical distributions
- Designed with zinc-infused thermoset powder coat finish providing superior resistance to corrosion and weathering
- Uniform pathway illumination
- Vandal resistant polycarbonate lens
- UL Wet Location
- BAA compliant
- 10-Year L70 performance-based warranty

360° Down light Illumination
for optimal safety and clearance

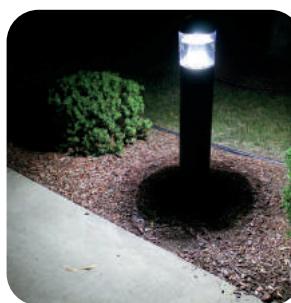

Bollard Retrofit Base Kit adapts to new bollards
to most existing bolt patterns

The Lumecon LM-BOL walkway bollard is built with a robust die-cast aluminum housing and vandal resistant polycarbonate lens. Available in a variety of styles from traditional to contemporary and some design options available in clear glass refractor, cone reflector or internal louvers. In addition, we have a Bollard Retrofit Base Kit that adapts to new bollards to most existing bolt patterns.

BOLLARDS ARE THE PERFECT SOLUTION FOR:

- Entrance Walkways
- Retail Centers
- Industrial Parks
- Schools and University Pathways
- Public Transit and Airports
- Office Buildings and Medical Facilities

Poles & Accessories

Lumecon's supplier is an industry leading and trusted source for aluminum and steel light poles and accessories. Specified and used in a variety of Street, Area, Roadway, Utility, Municipal, Pedestrian, and Smart City lighting applications, our products include Anchor Base Poles, Direct Buried Poles, Decorative Poles, Hinged Poles, Small Cell 5G Antenna Poles, Solar Poles, and Camera Poles, along with a variety of Light Pole Arms, Brackets, and Light Pole Accessories.

POLES

Heavy-wall, spun aluminum for the clean contemporary look, or the cast aluminum for the decorative period appearance. Poles can be drilled to accept side mount fixtures, or supplied with tenon for post top fixtures. Uniform channel system on all sides of the shaft gives a unique appearance while allowing for a wide range of uses with the various brackets offered.

- Steel Poles
- Aluminum Poles
- Decorative Bases & Poles
- SMART Pole Solutions
- Pole Accessories
- Pole Arms
- Breakaway Poles
- Pole Solutions

All pole products come complete with the state-of-the-art, multi-stage finishing process.

BRACKETS

We supply a wide array of cross mounted, post-top mounted, and up-sweep brackets to fit any of our poles and some existing poles. Our standard bracket selection is just the beginning; we can build custom brackets to meet any need. All brackets can be powder coated in any of our 16 standard colors – with custom color matches always available.

- Square Mounting Brackets
- Upsweep Brackets
- Pole Top Reducers
- Round Pole Top Adapter Brackets
- Side Mounted Cross Arm Brackets
- Tapered Elliptical Arm Brackets
- LED Cross Arm Brackets
- Pole Top Tenon Adapters
- Cross Arm Brackets for Steel Poles
- Multiple Mounting Cross Arm Brackets
- Top Mounted Cross Arm Brackets
- Pole Top Floodlight Mounting Brackets
- Pole Top Bullhorn Brackets
- Spoke Brackets

ACCESSORIES & OPTIONS

Our poles can accommodate almost any type of accessory, from cameras and speakers to sensors and flags, and we have a long list options to meet your specific needs – from the standard coupling or plate to banner arms and flag or flower pot holders.

- Break Away Couplings
- Electric Lowering Winch
- Pole Top Tenon Adapters
- Two-Tier Adapter Plate
- Pole Caps
- Banner Arm
- ABS Base Covers
- Lowering Winch
- Flag Holder
- Transformer Bases
- Camera Mounting Options
- Welded Bracket
- Universal Fixture Mount
- Ground Fault Circuit Interrupter
- Mounting Bracket

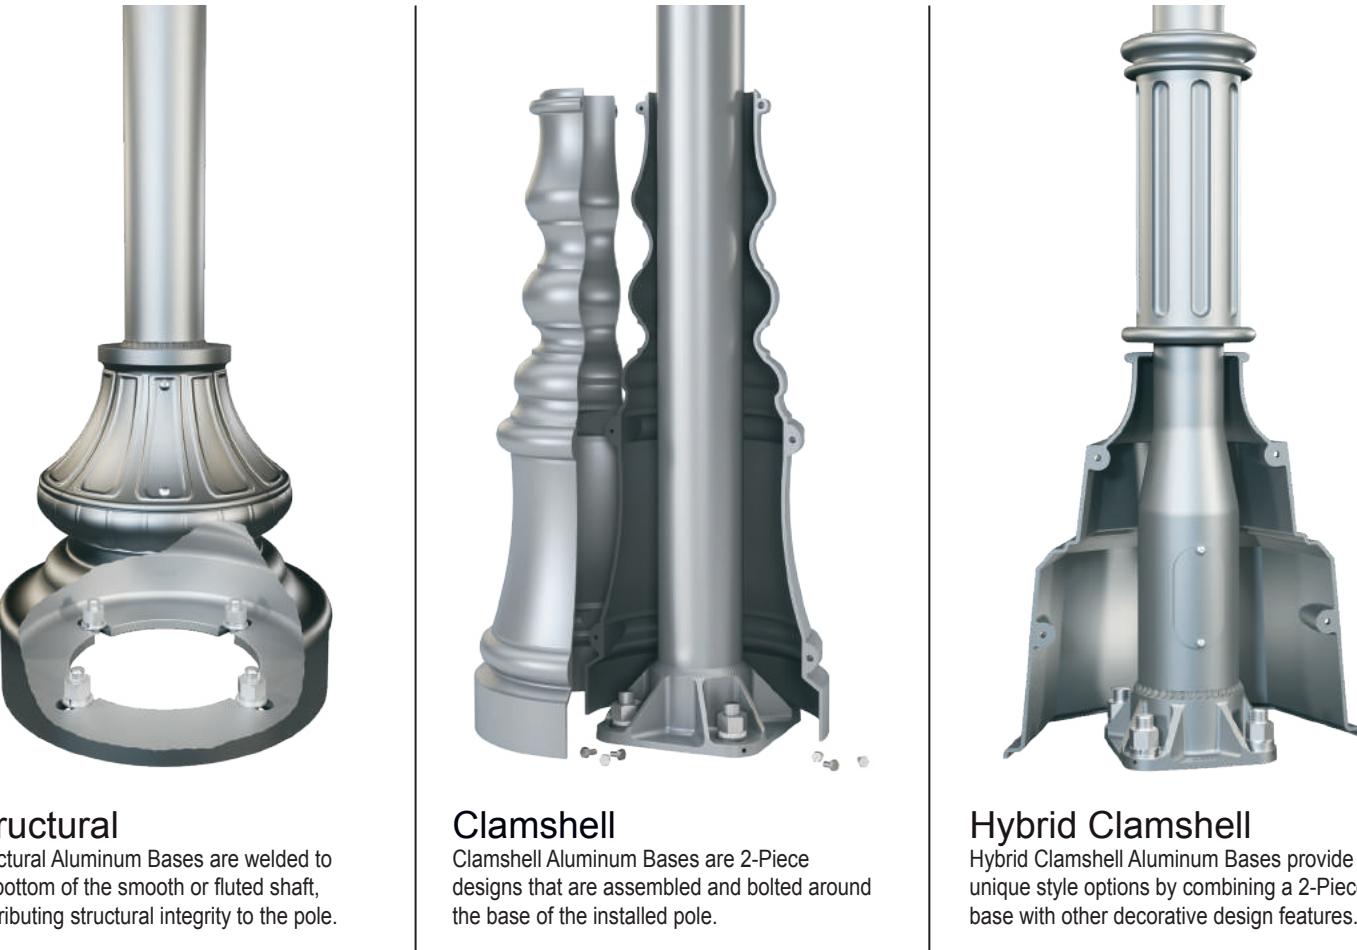

For detailed information, please see a Lumecon Sales Rep

Decorative Bases

Industry-Leading Assortment of Structural, Clamshell and Hybrid Clamshell Decorative Bases

Our decorative bases makes it easy to meet any period or contemporary lighting specification. Offering a variety of heights, widths and finishes, the decorative bases options will complete any project.

Structural

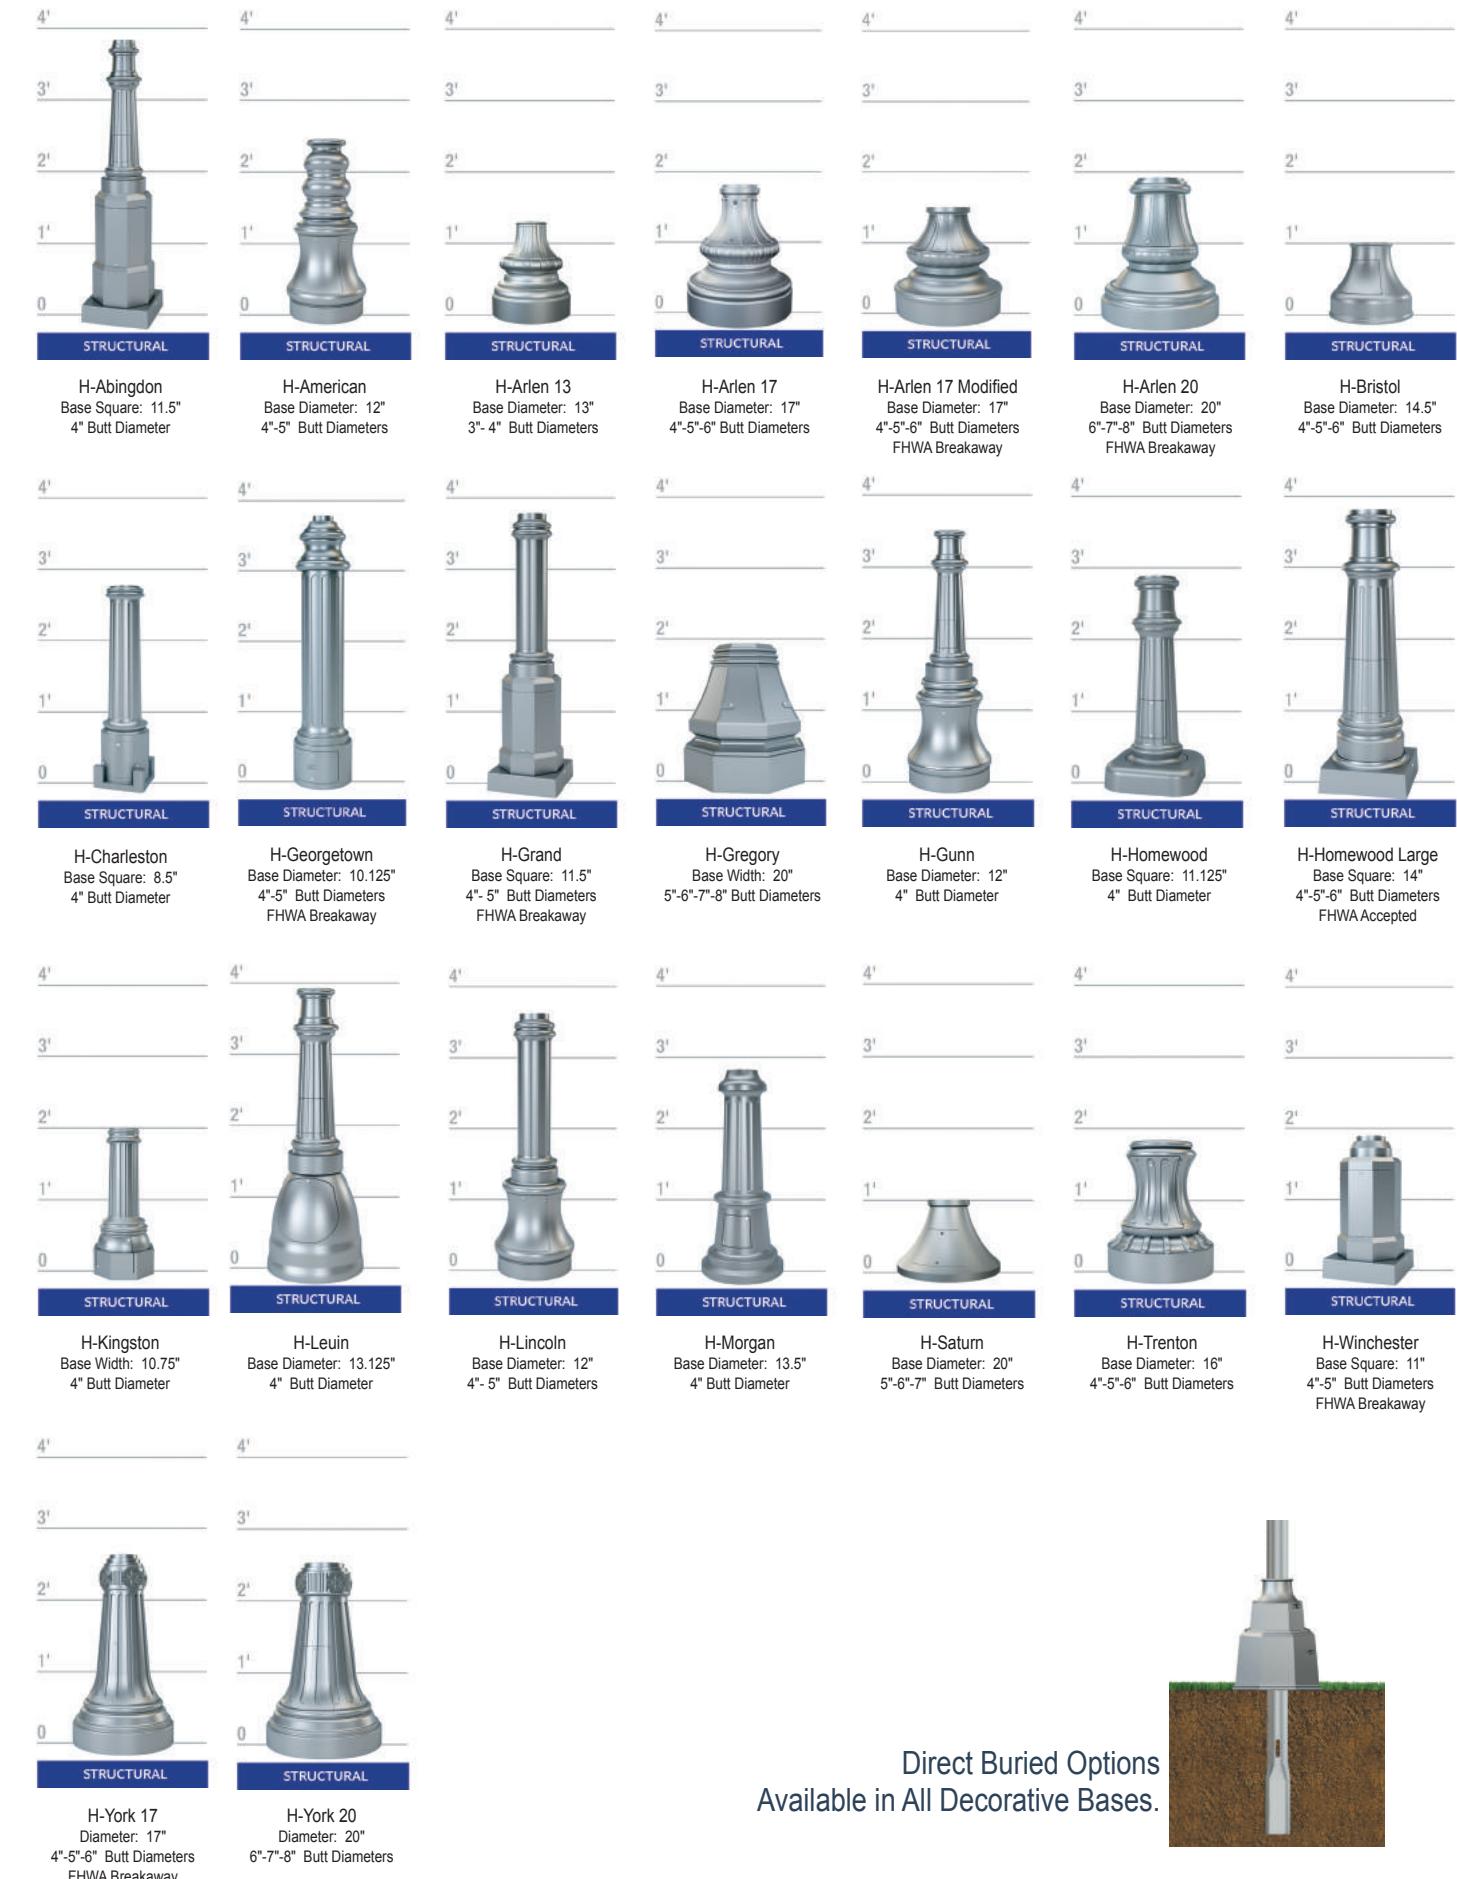

Structural Aluminum Bases are welded to the bottom of the smooth or fluted shaft, contributing structural integrity to the pole.

Clamshell

Clamshell Aluminum Bases are 2-Piece designs that are assembled and bolted around the base of the installed pole.

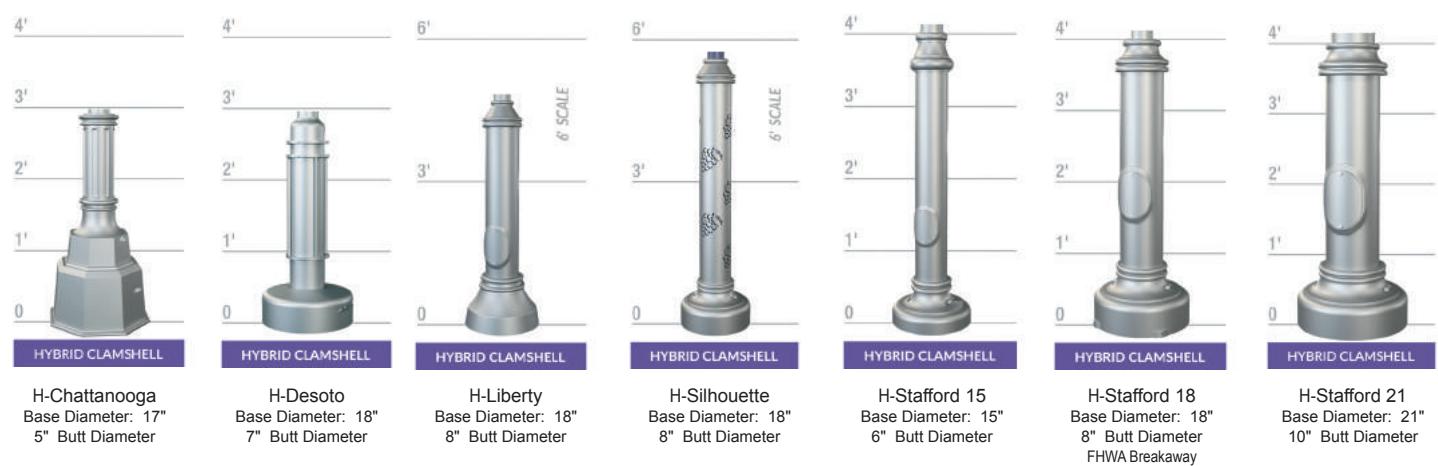

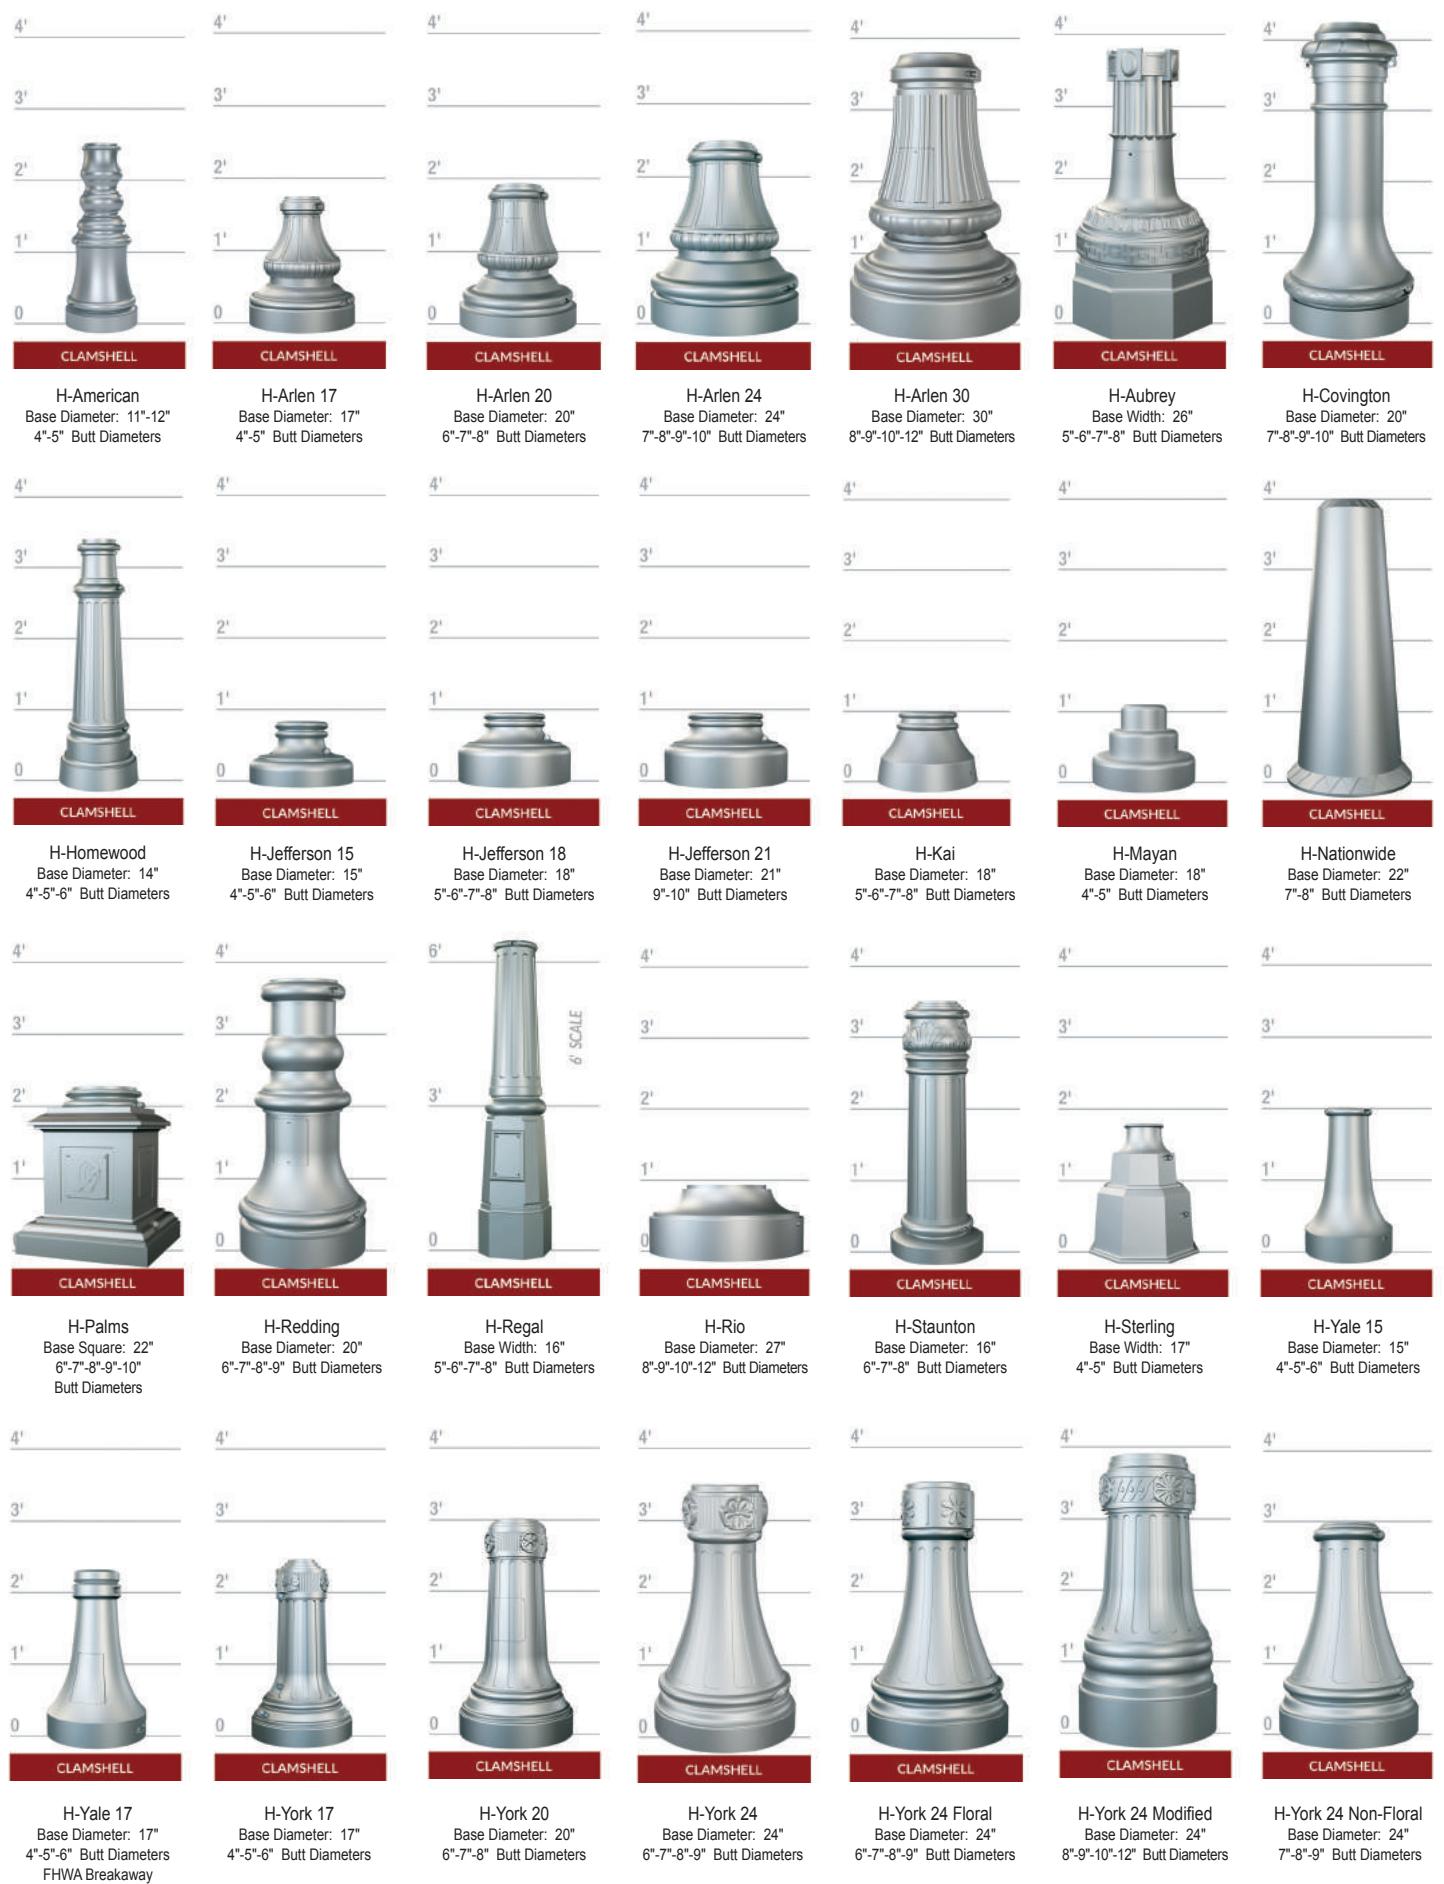

Hybrid Clamshell

Hybrid Clamshell Aluminum Bases provide unique style options by combining a 2-Piece base with other decorative design features.

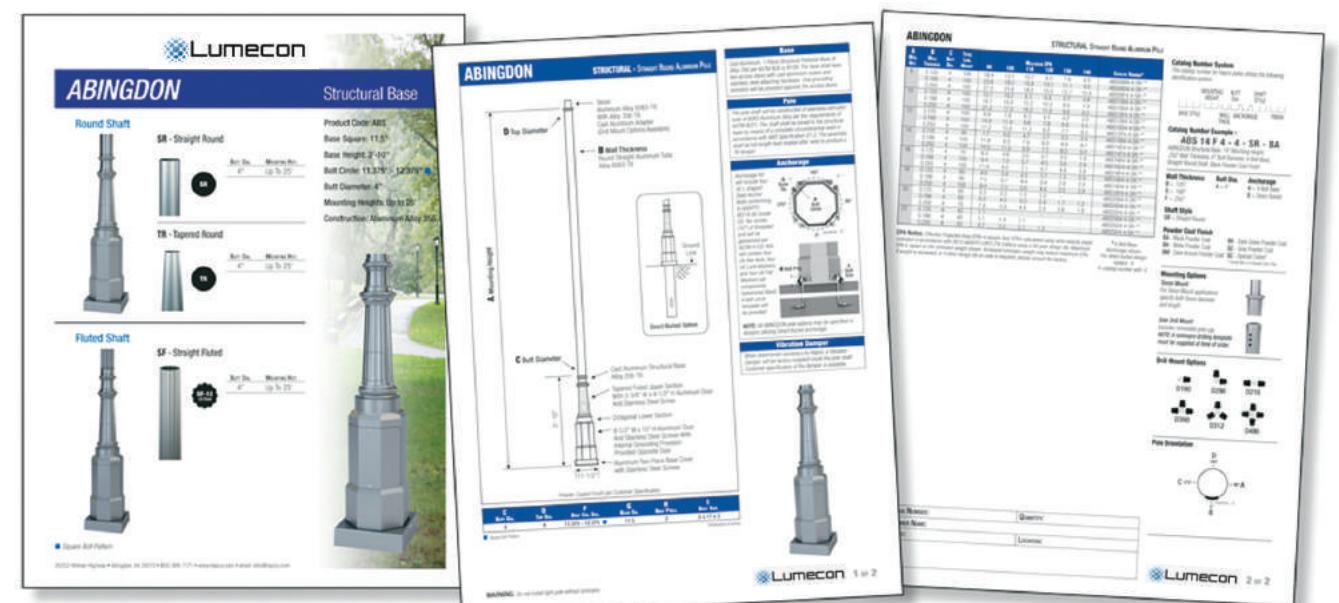

Direct Buried Options
Available in All Decorative Bases.

Retrofit Solutions

LUMECON SPECIALIZES IN DESIGNING AND MANUFACTURING LED LIGHT ENGINES FOR YOUR DECORATIVE FIXTURE

With your fixture and specifications for lumen output, wattage, optical distribution, and color temperature, our team of engineers and designers will develop a custom solution to meet your requirements.

- Precise Customization: LED solutions tailored to your specific needs
- Innovative Technology: Cutting-edge LED boards and optics for quality without costly tooling
- Exceeding Expectations: Rigorous prototyping, ensuring high performance
- Comprehensive Package: Full prototype, assembly illustrations, and installation instructions

All manufacturing of prototype and production kits occurs at our facility in Farmington Hills, MI, and comes with Lumecon's 10-year performance warranty. Not sure how to navigate UL safety certification, LM-79 testing, DLC® listing, or IDA certifications? We can handle all third-party testing and certification submittal on your behalf.

EVERY DESIGN INCLUDES

- ✓ American Made Certification
- ✓ 10-Year Performance Warranty to L70, including driver
- ✓ 40kV Surge Suppression MOV (room permitting)
- ✓ Type V, IV, III, II Light Patterns available
- ✓ 2200K, 2700K, 3000K, 4000K and 5000K Temperatures
- ✓ 80 CRI Standard 90 CRI available
- ✓ Volume-based pricing (yearly blankets are accepted)

RETROFIT ADVANTAGES

- Energy Efficiency and Savings
- Reduced Operating and Maintenance Costs
- Saves Original Lighting Fixture Investment
- Rebates and Incentives
- Improved Security
- Less Light Pollution

READY TO UPGRADE YOUR CURRENT DECORATIVE POST-TOP LIGHTING?
Lumecon's Retrofit solutions seamlessly integrate with your existing investment, ensuring a cost-effective and efficient transformation.

RETROFIT PROCESS

STEP 1 FIXTURE EVALUATION

We receive OEM's Fixture and we begin our detailed technical evaluation process.

- Create a CAD model of the OEM fixture (if CAD not available)
- Develop a light engine solution in CA.
- Manufacture a light engine prototype

STEP 2 PROTOTYPE TESTING

Thorough testing of prototype light engine to meet our 10-year warranty standards.

- A technician checks the fit and inspects ease of installation
- Perform in-situ thermal testing to validate performance and 10-year lifetime rating

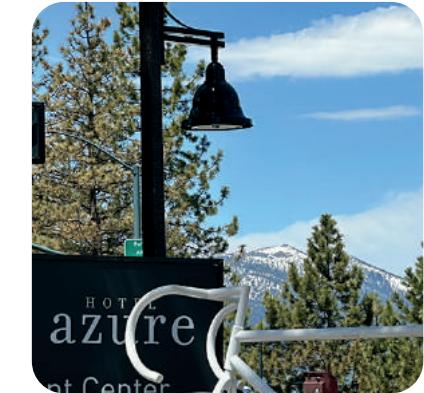

STEP 3 DELIVERY STANDARDS

For ease of an independent installation, we include a prototype and detailed instructions.

- Create detailed spec sheet, factory assembly instructions, and field installation instructions
- Return fixture with prototype installed

Our Retrofit Solutions provide numerous advantages, including tailored solutions, assured quality, cost savings, faster time-to-market, and the ability to focus on core competencies.
