Choose Lumecon's Midtown Series and Experience the Difference in Performance, Quality, and American-Made Excellence.

With best-in-class customizable options, the Midtown Series boasts iconic and traditional shapes and forms that will enhance any streetscape project, including municipal, public works, commercial and retail, and campus lighting needs. From custom assembly to selecting your color temperature, tiered wattages, and anti-glare optics, the Midtown Series offers a range of options to meet your specific project design, spec, or RFP.

At Lumecon, we believe in building robust performance and quality products that are Made in the USA, supporting American jobs and manufacturing. The Midtown Series is no exception, crafted with the highest quality materials and technology for long-lasting durability and reliability.
