

**Subject:** TAA Compliance Certification

This letter serves as a formal certification that [Company Name] is in full compliance with the Trade Agreements Act (TAA) (19 U.S.C. §§ 2501–2581). Our company ensures that all products supplied under our contracts with the U.S. Government meet the requirements of the TAA, meaning they are manufactured or “substantially transformed” in a “designated country” as defined by the Act.

Our compliance is based on the following assurances:

- The products starting with the nomenclature of **BLS** are manufactured or substantially transformed in the United States or a “TAA-designated country”.
- We actively monitor our supply chain and procurement processes to ensure continued compliance.
- We maintain thorough documentation and records to support our compliance, which can be provided upon request.

For reference, TAA-designated countries include but are not limited to countries that are part of the World Trade Organization Government Procurement Agreement (WTO GPA), free trade agreement countries, least-developed countries, and Caribbean Basin countries.

Should you require any additional information or documentation regarding our TAA compliance, please do not hesitate to contact us at [sales@lumecon.com](mailto:sales@lumecon.com)

Sincerely,

**Robert D. Hahn**

Robert D. Hahn
